

P3 - Session Recording - K2336620-CI6315

[00:00:00] **Participant 3:** These two are you or?

[00:00:09] **Moderator:** Yeah,

[00:00:09] **Participant 3:** the, uh, only this is my section. Okay. Okay. I can, I can draw that out. Uh, demographics, let me, yeah. Check, check the previous phase.

[00:00:22] **Participant 3:** Alright. All hmm. Age 0 25.

[00:00:31] **Moderator:** Um, I'm gonna start recording, but yeah, don't do disturb by that. Just keep, keep going again,

[00:00:37] **Participant 3:** I'm all good

[00:00:39] **Moderator:** case. Okay, so this is participant number three and we on the participant actually,

[00:00:48] **Participant 3:** uh, partial, I guess. No way, no study area.

[00:00:53] **Moderator:** Occupation? Technically.

[00:00:55] **Participant 3:** Technically I did. Do you can list

[00:00:56] **Moderator:** both

[00:00:57] **Participant 3:** the gain development program at the [00:01:00] moment? At the moment, yeah. Yard marshal, I guess. And logistics. Yard marsh? Uh, yeah. Occupation to use?

[00:01:20] **Participant 3:** Yeah, because I writing you could tell I only use thesis, uh, highest level of education, undergraduate degree.

[00:01:31] Um,

[00:01:36] **Participant 3:** yeah. I, I, I wonder, um,

[00:01:38] **Moderator:** yeah. I also needed to ask if you've got any questions of this.

[00:01:41] **Participant 3:** Oh, right. Uh, not really. It was pretty strict to the point. Okay. Um. I mean, I remember reading it and yeah, that was a much to ask. Um, okay, that's fine. Uh,

[00:01:55] **Participant 3:** questioning in my head[00:02:00]

[00:02:00] **Participant 3:** because if it wasn't the weekend, like the, this area, 'cause the weekends involved it program programming online game right now here, um, 11 to 20, let's just say that the best, uh, computer Pro advanced, not at 12. I don't make computers. Um,

[00:02:26] **Participant 3:** um, Bradley websites, maple. Which are the following website tools you used before?

[00:02:36] **Participant 3:** None. This is just Dreamweaver when I leave blank. Then science. Yeah. Um. You used wit before, never used it. Optional. Uh, do you have any experience with other design tools? Big Photoshop? Yes, I do. I've used it to make art assets and video games. Oh, woo. I can see I have very good [00:03:00] eyes. It's all good. Um, the answer to 11 is yes.

[00:03:06] **Participant 3:** Could you list which ones and how confident you are in using the Photoshop and given,

[00:03:24] **Participant 3:** um, moderate, moderate, incompetent, moderate,

[00:03:36] **Participant 3:** wrong hold.

[00:03:44] **Moderator:** There we go. All right, so as for the device, the operating system is Windows 11 and Yeah, if you want me to

[00:03:56] **Participant 3:** Oh, right. Oh right, sorry. Uh, I was, that's fine [00:04:00] for you. Were speaking for the recording. Uh, I dunno why, Brandon, what

[00:04:13] **Participant 3:** assist Assistive technologies. Alright, sorry. Alright. The next, the next section is the

[00:04:24] **Moderator:** test themselves. Um, yeah, it's really important to remind you that, uh, we are not judging and testing you, we are more like testing the system. So, uh, it's important to always communicate if you've got any sort of frustrations, um, with the system, with any assumptions.

[00:04:43] **Moderator:** For example, let's say, uh, you expect a certain to see a certain option to be in a particular menu, and if you happen to go there and it's not there somewhere else, somewhere else, tion. Yeah. Basically be vocal about everything that's going to, to your head, [00:05:00] right? Oh, yeah. There's no time limit, but if you wanna move on,

[00:05:05] **Participant 3:** you can speak up and let me know.

[00:05:07] **Moderator:** Mm-hmm. Um, do try to do each task without help unless you get completely stuck. In which case it's completely fine of course, to ask for help. Hmm.

[00:05:17] **Participant 3:** So, yeah. Any questions for that? Nope. Uh, I think I'm good. Okay.

[00:05:22] **Moderator:** Then we can start it. Task one, get started. So, uh, for each task we've got a bit of a context and what you need to do, if

[00:05:32] **Participant 3:** you consider the site, it starts, you block your website where you tell the stories of your profession slash studies.

[00:05:39] **Participant 3:** Cool. Uh, make an account and begin creating your first manual non-AI generated website. All right. 'cause I'll open up with

[00:05:50] **Moderator:** Yep. Uh,

[00:05:52] **Participant 3:** uh,

[00:05:54] **Moderator:** just one second. 'cause I also need to open.[00:06:00]

[00:06:00] **Moderator:** Right. We're gonna need to use it later.

[00:06:02] **Participant 3:** That's all good. So I assume I would've done Oh well mouse. Ah, sorry. I usually use a laptop. And also you've

[00:06:12] **Moderator:** got a, the screen here, so Yeah.

[00:06:15] **Participant 3:** Ah, I used to have a touchscreen one used it for a lot of ask, sorry. Art assets. Yeah. Whoops.

[00:06:22] **Moderator:** Yeah, that's another project. But basically, uh, once you register into Wix, 'cause you don't need to make a, an account now, I think, uh, once you register into Wix, this is the page you're presented with.

[00:06:33] **Participant 3:** Yeah. So, so yeah. So should I sign out and then make a login? 'cause it says no, no, there's no need to, to create an account as task one. Well, up to you,

[00:06:44] but

[00:06:45] **Moderator:** I would say it's not that necessary to create

[00:06:47] **Participant 3:** an account here if it's not necessary. Yeah. You could just start with it. I, I'll start with with where we are at the moment.

[00:06:52] **Participant 3:** Yeah, yeah, yeah. Because creating, ah, dunno how I feel about using emails and all that. Um, this is another project. Yeah, yeah, yeah. Um, [00:07:00] create new site and I assume, yeah. This is a weird mouse. I'm not used to the mouse. Uh oh. Oh, okay. Uh, this saddens me a little, uh, task.

[00:07:18] **Participant 3:** Uh, let's set up without chat. I usually like things manual. Uh,

[00:07:23] **Moderator:** yeah, that's what also the, what the task says. non-AI generated. Yeah.

[00:07:28] **Participant 3:** Uh, uh, what type of website do you wanna create? A blog. Okay. Coming soon. Nah, just a blog. All right. Continue.

[00:07:50] **Participant 3:** Connect to Custom Domain.

[00:07:53] **Moderator:** So now you can choose your topic, I guess. So something you're interested in. [00:08:00]

[00:08:00] **Participant 3:** Uh, let's call its website Unger Games. Oh, very. Has a wing to it. Yeah. Uh, what is the goal of this site? Uh,

[00:08:17] **Participant 3:** I, I guess shared knowledge since it's a blog on these things. Uh, build like personal opinion. So maybe brought it myself. So is it like, yeah, I can do multiple school, uh, maybe even build a community, uh, but I hope it doesn't make me do stuff. Regarding that.

[00:08:39] **Participant 3:** Choose the apps you'd like to add. An online store. Bookings events. Go for more apps. Okay. Log app. Um, uh, let me look at the other things in case it asks me for anything else.[00:09:00]

[00:09:01] **Participant 3:** Hmm.

[00:09:05] **Participant 3:** Anything for articles?

[00:09:09] **Participant 3:** Nah. Trying to get used to a feel, but it's very weird. Okay. You're all set. Continue to the dashboard. Wow. Okay. Does it make anything? For now, let's see. Uh, connect to a custom domain. Yeah. Nice. UNK games online.com. Very nice. Let's make it mine. I kind of, I'm not happy with the online, but whatever, maybe UNK games exists, so this is gonna ask

[00:09:40] **Moderator:** you to

[00:09:41] **Participant 3:** pay it for domain so we can, we can just skip that.

[00:09:44] **Participant 3:** Uh, or skip or is it by, uh, we can go back. Okay. Design the site. Uh. All right. Let's do a template then.

[00:09:56] **Moderator:** And as per the instructions, the other line will text at the [00:10:00] bottom. Mm-hmm. Uh, you have to use the blank template since that from scratch, basically.

[00:10:05] **Participant 3:** Where is blank? Can I scroll? Okay. The scroll wheel's a bit weird.

[00:10:10] **Participant 3:** Uh, okay. Blank. Yeah. Scratch, uh, edit, I guess,

[00:10:31] **Moderator:** uh, on the topic intro. So what we're looking to do here is basically the, the classic, uh, website layout. Mm. So, you know the title of your, of your website, uh, in the upper left corner. Mm-hmm. And maybe a simple menu, and then just for, for navigation,

[00:10:49] **Participant 3:** whatever else.

[00:10:50] **Moderator:** Okay. We gotta the conversation

[00:10:52] **Participant 3:** later. Yeah.

[00:10:54] **Participant 3:** But

[00:10:56] **Moderator:** they're

[00:10:56] **Participant 3:** more interested

[00:10:57] **Moderator:** in

[00:10:58] **Participant 3:** making the header [00:11:00] at the moment. Oh. Which is taking a while. Arranging your workspace. This is an empty workspace. It's a bit confusing. Why it's taking a sec. Internet seems fine. Uh, adding the final touch. Are we?

[00:11:17] **Participant 3:** No, it still charging along. All right. My first, it doesn't take us, my first complaint is, which is slow. It might actually be the internet, but hang on. In case curious. Uh, it's, even though it shows five bars, it, it can still be organized mode links. Oh, okay. All right. Sorry. All right, so we've got a blank. Oh, okay.

[00:11:42] **Participant 3:** No, I don't want ai. Please go away. There's a, i we here, yeah. Really wants me to not be hands on when I wanna be hands on. Um, all right. Uh,

[00:11:59] **Participant 3:** that [00:12:00] section,

[00:12:04] **Participant 3:** welcome section. Uh, I just want a log. Um, yeah, that's, that's for us to like, yeah. We can take care of this data. Second. Well, all I want is just ahead of section and Yeah. Uh, like be as corporate as possible. Um, you can go back to the, uh, because you're in the individual post page. Okay. Go back to the homepage.

[00:12:36] **Participant 3:** Ah, uh, no, no. The, uh, the homepage of the website, it's, uh, you. Oh. Um.

[00:12:49] **Participant 3:** No, no, no. I don't want AI pages. Uh, so the site menu [00:13:00] home. Okay. Uh,

[00:13:06] **Participant 3:** yeah. Um, all right, let's, let's do ahead. So the first thing we need to add is a right. Um, uh, uh, uh, okay. But now wants to do a menu. It's, it wants to do a menu. Um, you can also do

[00:13:24] **Moderator:** a menu.

[00:13:25] **Participant 3:** Uh, can, no, I want to do a type gimme, uh, change header design. No. Quick header

[00:13:38] **Participant 3:** design section. Yeah. I want to add an element. Yes. There we go. At a heading? Yes. Uh,

[00:13:50] **Participant 3:** okay[00:14:00]

[00:14:04] **Participant 3:** com. Yeah. Perfect.

[00:14:10] **Participant 3:** I can't widen this. Can I widen this? Uh, how do I, right. I don't know how to, um, layout section background. Well, let's change a background so I can get a clear snow out in. Right. This is getting worse and worse progressively. Um,

[00:14:35] **Participant 3:** that seems too, right? Okay. Um. Oh, okay. There we go. There. Let's, let's do green. Very nice. That's much can be weird. Okay. Focus on the colors here later. Yeah, I'm just trying to find, ask for it. So I'm trying to find the box to be able to stretch out the text so that I could be able to, uh, you know, get the full title in a, in one line.

[00:14:58] **Participant 3:** That's my issue. [00:15:00] Uh, up there we go. After three clicks, it miraculously it. Very cool. Uh, er games.com, uh, or I can generate, yes. Uh, scroll, uh, the top. Got, uh, so, so this is the top, is this, I don't know. Um, I be right. Am I on the page? I don't know which. I'm on the home. Uh. This is a very thin page. So if I

[00:15:43] **Participant 3:** Oh, right, okay. That white

[00:15:46] **Moderator:** blank space there.

[00:15:47] **Participant 3:** Looks, can I, so what if I just, I think you might back, so otherwise it's, oh, okay. That's, that's an issue then. Oh, it doesn't [00:16:00] allow me to past it in the header area. Well, how dare you stop me from interacting. All right. Um, I guess it's forcing me to do a menu rather than have the header at the top.

[00:16:13] **Participant 3:** Is it possible to move past itself? The driver? Uh, oh, okay. I thought, to be honest, I assumed it was a whole section with the background. Um, I mean, it's not, uh, underscored as well, which is pretty nice. Uh, can I zoom out so I could see my page? Yes. Under longer games.com. Right. This is a very cool webpage.

[00:16:39] **Participant 3:** Um, I'm gonna, so can I delete this? Can I delete this? Okay. Yeah, we've got it games.com. Uh, what else will be needed? Um, I don't, hang on. What about, so let's say we stretch this [00:17:00] downwards. Now we can actually add a header as in like, the, the, the or not. And you're not allowing me to add a menu. Now

[00:17:15] **Participant 3:** can I, can I,

[00:17:20] **Participant 3:** you saw the menu. My phone's going well. Sorry. Uh, scroll background. Okay, well, I'll have it like that. Uh.

[00:17:39] **Participant 3:** Well, I don't seem to be able to, uh, add the, the menu list that I could. So unless here, let's reset to see if when I click it,

[00:17:56] **Participant 3:** it add-ons. No, I don't that yet. [00:18:00] Yeah. Okay. I give up on this head up. It's, it's not helping me. Uh, okay. Um, unless I Google it, but lemme just, um, I really wanna make this big small space. So the two having space for

[00:18:26] **Participant 3:** menu and anchor there, it's Right. Let's add, you can choose a. Uh, a really ugly one. I want Ugly is the name of the game, right? And we shove that there where it shouldn't be. Um, I want this upside down in particular. Can I get this upside down? Let's see. Yeah, let's stretch this. So I wanna have full creative freedom with my website.

[00:18:53] **Participant 3:** Um, so if I do this, does that just, well, that does that, um,[00:19:00]

[00:19:02] **Participant 3:** can I rotate it? Animation effects? I could stretch it. Well, you have more time to do that at the end. Okay. This is, this is moment, yeah, we're trying to focus on the desk themselves. Uh, well it's, uh, but you have an account and it's a website. Uh, it's a homepage with a title and header with a menu for navigation.

[00:19:24] **Participant 3:** So, you know what, yeah. I have achieved my goal. So you've completed task one? Yes. It is, uh, it's doing its job. Uh, I could make

it pretty, but yeah, that like make, we can do that. Like make the buttons upside down. Yeah, that's fine.

[00:19:38] **Moderator:** We can make that.

[00:19:39] **Participant 3:** Yeah. Uh, so let's focus on task two then about me, right? Hang on.

[00:19:45] **Participant 3:** So you want to introduce your site visitors to yourself so that they know whose publications they see. It has to be a whole page. Hang on. I gotta add a button to this for an about me. Uh, so

[00:19:58] **Moderator:** to create a new [00:20:00]

[00:20:00] **Participant 3:** page called about me, add about to the, uh, can I add about, uh, about,

[00:20:12] **Participant 3:** no. Okay. Home is blue. Now add an about, well, it doesn't want me adding an about, although there's a tick, so I'm assuming that's the blog. Whatever that tick is. Oh no, it's switching the theme of the menu. Right. Okay. So switching the menu. Okay. But I don't want that, I want to add a button. Design layout.

[00:20:42] **Participant 3:** Well, the desk specifically says design a page. Mm. Maybe I won't do it too much with a perfectionist. I don't know. Uh, all right, then let's make another page, add a section. Uh, no wait, I'm just gonna help you out and say [00:21:00] page, once you add your page, it's gonna show up on Okay. New page. Perfect. You blank page.

[00:21:08] **Participant 3:** Yeah. We gonna start even though it, this has some about us. A uh, what's name bit? Uh, I have an old Richard laptop. Uh, done. Right. There we go. So.

[00:21:25] **Moderator:** See how it's popped up on

[00:21:26] **Participant 3:** the battery. Yes. Very nice. Now what I wonder is if I double click that, does that answer me to it? Nah, it's not that intuitive. Oh. Um, I shall, I mean, am I on the page?

[00:21:42] **Participant 3:** I'm clicking on the pages,

[00:21:43] **Moderator:** so, yeah. Uh, on the above me page, you're expected to have a sample image. Um, you can download the, a sample image for Google, let's say, and use that and some text about you, uh, tell your story what, despite to [00:22:00] start, uh, your day of study, so you know to,

[00:22:07] **Participant 3:** alright, that will do. Yeah.

[00:22:09] **Participant 3:** It's a portrait. It'll do, uh, right. Um, so if I, can I paste it? Let's see. No. Okay. Control Z, is that what, okay. That. Add element, uh, image. There we go.

[00:22:34] **Participant 3:** I can I just paste it? Is there like rights issues? Uh, from your social, if you want to download it, add new computer. It's not pastable. Wow. Um, I'm just not a hundred percent sure. The copy actually went through. Yeah, I could try again. Copy image. There you go. Manually right click. All right. Right click [00:23:00] here.

[00:23:01] **Participant 3:** Oh, try web, click. Yeah. Alright. Past? Nah, it doesn't like me. It just wants to past. It did work for, uh, the previous. Oh, okay. Interesting. What am I doing wrong? I think it doesn't like, uh, my image. You can download it if you wanna. Yeah, you can. Okay. And you can use that. Okay. Uh, this, this person represents my inner psyche.

[00:23:32] **Participant 3:** Uh, so now I shall his smile, his joy. He represents me. I think that's a good image. Okay. Uh, where, okay. Add elements, image. Right. Upload images. I hope I'm not looking places at all. I could have just, uh, okay. Can I, I down looks. Yeah, there's, [00:24:00] there we go. There he is. He's beautiful. Some other people have got very smart and wise.

[00:24:05] **Participant 3:** One here he go.

[00:24:08] **Moderator:** Yeah. This participant did a chemistry involved. Ah. Oh, okay.

[00:24:12] **Participant 3:** Well this is my man, uh, my psyche. Uh. So the moment it's a bit too big. So, ah, you might wanna size this. I put in the and Right. Okay. Now, um, quick edit. This is the right piece, right? It's a bit hard to tell. It's the head of things kind of universal between, um, I guess it kind of underlines it for you.

[00:24:44] **Participant 3:** Yeah. Okay. Yeah. So we now need to add some sample

[00:24:50] **Moderator:** text, um, about you, uh, to tell your story, whether it's bad, you just start your day job or study. So, uh, to work on this [00:25:00] topic in particular, um, and your past experience, if you want to, you can make it serious now. Uh, and for that you can use G gt,

[00:25:09] **Participant 3:** uh, to generate the text first and then copy past.

[00:25:13] **Participant 3:** All right. Well, the layout section takes a while to load, which is a bit depressive. There we go. Okay. It's fucking,

[00:25:21] **Participant 3:** this is beautiful. Oh, thank God. Eventually, uh, I need to line him in. Okay. We're not allowed prime position according to this, so can I? Okay. There we go. Control Z, controls Z. How dare this? How dare Ws do this to me? I cannot. I fixed it. Uh, wait, hang on. Uh oh. Ooh, no. Uh uh. Okay. Back to the, uh, yes. Uh, and then if I,

[00:25:57] **Participant 3:** uh, [00:26:00] no. Right. I've got into a conundrum. I wanted my representation itself to be at the site, and I haven't been.

[00:26:15] **Participant 3:** Too much control. Have you seen the movies that guy's in? Uh, do you even know the actor? No. Ah, man. He's, uh, what is it? Iron Maiden. He's Tony Starks Powell, the other Iron Man. Uh oh. Is that his? Yeah, that's him. Oh, yeah, yeah, yeah. Alright. No, it just literally worked. I didn't recognize him. Who, who, who, what actor can I think of in this moment?

[00:26:42] **Participant 3:** Yeah, yeah, yeah. It's just, so I need to add some, first I would say just generate that thing so that you can copy. Ah, yes. Uh, and just, I'm a gamer who has a blog. I need to do it about section. Can you do it for me? Gamer[00:27:00]

[00:27:07] **Participant 3:** About Me page. Um,

[00:27:10] **Moderator:** there.

[00:27:11] **Participant 3:** And, uh, okay. So himself and here they go.

[00:27:26] **Participant 3:** Uh, I just don't want it to be 'cause themselves, uh, try it, try it. See if we

[00:27:40] **Moderator:** Oh, I think it didn't really

[00:27:43] **Participant 3:** get there. Yeah. Yeah. So let, lemme try the prompt for this. Um,

[00:27:52] **Participant 3:** uh, I should have removed the, about that was it.[00:28:00]

[00:28:12] **Participant 3:** All right. Yeah, that's much better. Oh, no, it's using you,

[00:28:18] **Moderator:** it knows my name, but yeah, that's fine. You can leave it because, um, yeah, it's important to not mention your, your name here. Mine is fine.

[00:28:31] **Participant 3:** There we go. There we go. Uh, without the last, yeah, so control C uh, and now we need to, uh, yeah, we've opened. Ah, so now we need to insert

[00:28:45] **Moderator:** text, execute and

[00:28:48] **Participant 3:** insert text view add element.

[00:28:52] **Participant 3:** I assume, I assume it's at text. Here we go. Cheeky, little bit of text. The same, the title, same [00:29:00] themes, paragraph. Sure. That one.

[00:29:09] **Participant 3:** Control B uh, how do I widen this? Can I make this fit, be it pretty web page? Uh, how do I use email? I,

[00:29:28] **Participant 3:** wow. This website is

[00:29:30] **Moderator:** not intuitive with the zooms. The zoom now doesn't mean do much.

[00:29:35] **Participant 3:** Yeah. This is a, you can't edit it. While, while it's, how dare it do this to me? I'm trying to simply utilize it. I'm offended by this. Um, all right.

[00:29:51] **Participant 3:** All right. I think that's it. That's, uh,

[00:29:58] **Participant 3:** hang on. We [00:30:00] need to do the final detail 'cause I'm having fun.

[00:30:07] **Participant 3:** There. Okay. Uh, okay. I mean, it got some, got something correct. I do like that soundtrack. Um, wrong Wrong. I dunno who that is. And wrong and wrong and wrong. Well, I got one thing right.

[00:30:31] **Participant 3:** Anyway, sorry. Speaking on the ai, right? Sorry, that is an about me page, right? Uh, sample image and story. So that's Yes, that's to them. Yeah. Two down. Let's go to, uh, a blog page. So you have, so this is like a list of blogs, right? Yeah. You've not set up

[00:30:53] **Moderator:** the most, most of the basics functionality for your website, and you're ready to make the main thing, the blog where you're gonna [00:31:00] write your articles.

[00:31:01] **Moderator:** So what you need to do is set up the block page that is going to list all the articles that you write, change the layout and the colors to your liking of the articles list page and the individual article page. So, yeah, it's

[00:31:15] **Participant 3:** done it for me.

[00:31:16] **Moderator:** Yeah, I'm, this is a, this is a bit of a catch with this task. It's already done it for you.

[00:31:22] **Moderator:** So what you actually need to do here is basically customize what you already have. Uh, the problem is

[00:31:29] **Participant 3:** these aren't existing blogs, so they're just things with reviews and whatever. Yeah. Which is really confusing. These are samples, but we are gonna change them later. Okay. At the moment, we only need to change the layout and the colors of the, I guess, uh, layout and colors.

[00:31:44] **Participant 3:** All right. Um,

[00:31:51] **Participant 3:** walk settings, uh, display. Don't display the right name. Uh, you already knew it is. [00:32:00] Published date. Short reading time description. Nah, we want to tease them. We want them to be interested in what this is. Um, I know they will. Great. Encounter more actions. No, you just wanna see the blog. Why would you want Okay.

[00:32:18] **Participant 3:** Layout tutorial. Uh, I think tile works a bit more fun. Uh, text line. Ooh, it was, oh, that's very ugly. I love it. Uh, right. Let's make the posts,

[00:32:41] **Participant 3:** the spacing between both. No, wait 10 pages. Wait, what, what is this? It goes to a hundred on the bar, but, uh, it's not wide enough to show a hundred. This is a F floor. I have issue with this when I use the scroll bar for the spacing in between my posts. I put it to [00:33:00] Max. It only shows 10, not a hundred. There you go.

[00:33:04] **Participant 3:** A, a, a violent complaint. Um, post height adjustment. I want it to be very, why so big? Are, are you gonna show them of Oxford Circus? Very important that people know. My Infinite Wisdom in Design, uh, page, I can't even see the book post anymore. Yes.

[00:33:30] **Participant 3:** 24. Yeah. Post per page. So let's, let's just, yeah. Very important. I think I've designed it pretty well. If you don't mind me. That would

[00:33:40] **Moderator:** look good in a bus stop. You know what? Yeah, yeah, yeah. Or the ads there. Bus lines

[00:33:46] **Participant 3:** where it's just like it needs to scroll through every single one. Hang on. Uh, I'll fix one more thing if I, okay.

[00:33:53] **Participant 3:** No, uh, lines for a title. Text live padding, right?

[00:34:00] This is it? No, on site. Oh, no, no. I mean, okay. Where's the text?

[00:34:14] **Participant 3:** Yeah, quite a, a little bit less, probably five, I assume, but it's not value there. Perfect. All right. Now it's actually functional with it. And then we need to change some of the colors as well. Uh, design. Uh, nope. Uh, support, help me help. How do I do this? Help me support. Uh, okay. Um, we at background, uh, sort of, I guess you customizing the page, but not the actual blog itself.

[00:34:55] **Participant 3:** Yeah. And then, uh, the color. [00:35:00] But this is again for the page, not the Yes. I need to click on that, correct. Oh. Oh, so I need to, what's this one? Settings?

[00:35:18] **Participant 3:** No. Okay. Um, nine. That's for the whole website. Oh, how dare it. Um, can I right click one second.

[00:35:36] **Participant 3:** I don't want to get an add on. Um, um,

[00:35:46] **Participant 3:** unless,

[00:35:52] **Participant 3:** no, that's more. And that's, can I, you really like that quick edit option? Yeah, because it's like, it's what my brain gravitates to for coloring. [00:36:00] It's like quick edit. All right. That's cool. I'll get quick with it, but it's not quick because it's doing the wrong thing. Um, I don't know. I don't know what to do to change your colors because

[00:36:15] **Participant 3:** up settings, uh, nope. Uh, stretch plugins, manage posts. Now this is a, it's taking a while to load. Oh, okay. This is a whole other page. I'm not gonna mess with this.

[00:36:38] **Moderator:** Um,

[00:36:41] **Participant 3:** yeah, I don't, yeah. Uh, I, I officially give up. That's right. Uh, you

[00:36:47] **Moderator:** actually got it, but what, but you said no. So it's on design under design.

[00:36:53] **Moderator:** You, uh,

[00:36:53] **Participant 3:** just Okay. Have all the elements of the actual blog listed, select, let's say for example, post, wait, wait, hang on, [00:37:00] hang on, post. How does post go? Okay, so it's, these are posts for the, so it designs it for a specific post. How would would've just been, well, the post

[00:37:11] **Moderator:** themselves, um, got this, this is a count as a navigation page, so this variation posts, category labels, buttons,

[00:37:21] **Participant 3:** videos.

[00:37:22] **Participant 3:** I, I personally vouch that this is unclear due to, um, well, how do I put it? It's going on, I think about the posts and what I thought would be more in depth about how the post is written and set up. But no, it's about the colors and design when you click in it, which, uh, yeah, it's not what I think when I see posts.

[00:37:42] **Participant 3:** If it was post design or post colors, then that would be clear. But as it is, uh, yeah, I read posts. That's not me. Um. That's all we need to do is just change the background of the box. Okay. I'm gonna change it. I'm gonna give [00:38:00] a background color of green.

[00:38:05] **Moderator:** You made it to be too big.

[00:38:07] **Participant 3:** Uh, it's very, so you can't see you changing.

[00:38:09] **Participant 3:** It's very important that it's green and the area background is green. Um, actually no. I, I think I need a, a new color of green. A new be slightly less green, actually, slightly more green. Uh, there we go. That helps. That fixes a lot of my issues. Uh, we've

[00:38:31] **Moderator:** customized the, um, post list page, but we also need to customize an individual post page.

[00:38:39] **Moderator:** So the individual app. So you need to open,

[00:38:41] **Participant 3:** uh, individual. Yeah. Right. Okay. Yeah. Yeah. So I, I've done this. Do I need to press apply? No, I don't. There it go. Blue outline and everything's be, Ooh, that's not good, but that's good enough. That's enough. Yeah. We can take post[00:39:00]

[00:39:03] **Moderator:** max. You got it.

[00:39:04] **Participant 3:** It took a second. This website is pretty smoke or website builder, um, or more like Amazon. Yeah. Um, so can we switch between posts?

[00:39:17] **Moderator:** So what we need to, um, this is gonna customize it across our posts. Okay. So, uh, what you're gonna do here is gonna apply to all the, uh, but what you need to do is just, yeah, maybe change the background again.

[00:39:31] **Moderator:** Change your background, or maybe the layout or whatever.

[00:39:38] **Participant 3:** No,

[00:39:43] **Participant 3:** here you go. So design, right? It's gonna Okay. That, that's a lot more clear. See? Textile and color. Let's see. Right now I need my, where is my gross frog green, um, paragraph. This is only text, isn't it?

[00:40:00] All right. Um, go back. Yeah, of course. It's rating, no ratings as the start. Um, background and buttons. There we go.

[00:40:10] **Participant 3:** There we go. Right. Uh, border opacity blue again. I did, I did a blue last time, but this one's gonna be extra thick. Just the dis audience. Uh, thanks. Uh, there we go. And then gross neon green, uh, is a toxic

radioactive guy. Yeah, yeah. Yeah. It's, it's a very, uh, no, maybe change a little bit of yellow. This color O Yeah.

[00:40:39] **Participant 3:** No, it needs to be really jarring with the color scheme. Um, and the background color is, uh, green. Uh. So I think, uh, I have designed it, uh, very, it's very gorgeous. Okay. Now do, yeah, the buttons are still loading, which is very funny to me. [00:41:00] Uh, this, this, and this. The uploading symbols at least, um, very suspicious of that as a whole, uh, tells me, which is taking its time.

[00:41:12] **Participant 3:** It needs to send too much data over to whatever server. Um, well, I, so

[00:41:17] **Moderator:** we can move on to task four.

[00:41:19] **Participant 3:** Dokey. Just write three articles, right? We have now decided to populate your blog with some sample to see how it works.

[00:41:28] **Moderator:** So your task is to just from, basically to generate, uh, three articles for your block,

[00:41:37] **Participant 3:** you need to capitalize three.

[00:41:45] **Participant 3:** Oh, wait, actually, wait.

[00:41:51] **Participant 3:** This is a very type of gaming blog.

[00:41:59] **Participant 3:** Wait choice. [00:42:00] Yeah. I, I don't know. It's, it's legacy kind of died. Um, all right. It actually knows it. That's okay. And then who would take in a sec? Does it? I don't know. It's kind of dead. Um,

[00:42:15] **Moderator:** okay, so you've got your three

[00:42:16] **Participant 3:** ads. That being said, I do not the actual headline and the, all right. So let's, you might need to copy this.

[00:42:26] **Participant 3:** That's all good. Uh oh, the middle math, right. So do, is this in management? How do I edit post individually? Do I need to,

[00:42:38] **Moderator:** you need to create a, a new

[00:42:39] **Participant 3:** one. New post,

[00:42:45] **Moderator:** uh,

[00:42:47] **Participant 3:** add section.

[00:42:53] **Participant 3:** Uh, what about pages, [00:43:00] log pages, right? That's separate from cycling. So Hope post log.

[00:43:13] **Participant 3:** Okay, so, uh, did I do it right now? Let me look at the page first, right? So far, that's your Wall Street style. Manage my post.

[00:43:29] **Participant 3:** Let's see this page and see if it actually, if there's anything I'm curious. All right. Create a post, right?

[00:43:38] **Participant 3:** Add a title. Uh, that'd be easiest if you can I just copy and piece the whole thing? What would you recommend? I would Oh, yes, but screen, oops, sorry. A little.

[00:43:57] **Participant 3:** Yeah. Uh, [00:44:00] copy. This is gonna be a lot of copy and pasting system and, and some sample images for them. Uh, we could use any of,

[00:44:10] **Moderator:** uh, all right. All right. Um, oh, I got it. But yeah, I could copy and paste. Yeah, I gotta give that away. No, you can, uh, copy it. Paste into an article.

[00:44:22] **Participant 3:** Uh, like an image. No, I, I, I just assumed, uh uh.

[00:44:27] **Participant 3:** All right. You can do that. Alright. I'm sorry. Uh.

[00:44:36] **Participant 3:** So

[00:44:37] **Moderator:** can, because I just remembered the previous participant did it in an article that copy and past, so it's gonna work

[00:44:42] **Participant 3:** now. Okay. So let's do one of those, uh, one of those hide the pixel. Yeah. Yeah. It's, it's gotta be, yeah, that's all. It's the highest quality image. Of course it's dark now. I dunno what's going on here.

[00:44:56] **Participant 3:** Okay. There you go. See, it's, it's, it needed to load,
[00:45:00] therefore it's very high quality. Um, I'll publish it now. It's very, very
thoroughly published. Uh, great. But you can publish your, no, maybe later. I
don't feel like it. Um,

[00:45:15] **Participant 3:** uh, did I have the emoji request? I don't think so.
Yeah. So no, not, no, no. We know we have two. Yeah. We control C uh. New
post

[00:45:37] **Participant 3:** B. Uh, okay. Oh, oh, oh. Almost. Uh, I think I missed
the capital O. Yeah. All right, let's try that again. Big money. Big money. There
we go.

[00:45:55] **Participant 3:** Copy. And then an image. Uh[00:46:00]

[00:46:02] **Participant 3:** oh. Go. I like this. This one's a very nice one. Uh, not
representative of the gamer time, but uh,

[00:46:17] **Participant 3:** there you go.

[00:46:19] **Moderator:** Yeah. Very high quality.

[00:46:21] **Participant 3:** Yeah. Very, very high quality. Uh, it shows an
evolution of him to death, but yeah. Um, uh. All right. That's two. Alright, last
one. Third times a charm. Create new. Is that actual concept off? Oh, album
three. Alright. Um, you can start with David. Nah, I was just curious.
Um,[00:47:00]

[00:47:01] b

[00:47:02] **Participant 3:** get the image again.

[00:47:04] What?

[00:47:06] **Participant 3:** Alpha

[00:47:11] **Participant 3:** what?

[00:47:15] **Participant 3:** Okay. Uh, well I'll, I'll do this one instead. Uh, and

[00:47:27] **Participant 3:** I wait for. Publish. Right. Um, so that was everything for task four. Yes. Task five. Now

[00:47:38] **Moderator:** final. Yeah, you need to finalize your, your homepage 'cause we left it bank, you remember? Uh, so what you need to do, uh, so the context is you have now decided to make your homepage functional by adding some presentable from your blog, any other sort of content.

[00:47:55] **Moderator:** So populate your homepage with some presentable elements from your blog and [00:48:00] or any texts or images that you wish to include. Maybe a short introduction or whatever else you would expect to see on the home page. Not then publish.

[00:48:09] **Participant 3:** Just um, uh, hang on. Yeah. This is the home page. Um,

[00:48:22] **Participant 3:** uh, oh, I was thinking. This 'cause you longer. Okay, so what, just populate it. Uh, I've read it. No, please. One of the things, please,

[00:48:35] **Moderator:** if you want to, you can start with populating it some of your blog elements. So you can add, let's say, let latest post on the, on the whole page and display by, uh,

[00:48:50] **Participant 3:** do I add a link or add a log?

[00:48:59] **Participant 3:** Um,[00:49:00]

[00:49:04] **Participant 3:** add a student find, uh, ooh, gross. Hang on. Is there a grosser one? No, that's not gross enough. Can I make a

[00:49:17] **Participant 3:** No, I cannot, I cannot make a color scheme for the theme. This is. Uh, disappointingly once again. Thank you, Wix. Um, that's color. Feel. Ah, here we go. Here we go. Right. Okay. First of all, green. Um, second of all, uh, green. Um, it's more green. There we go. Lastly, uh, uh, green. More green. Yeah. There we go. Uh oh. Um, there we go.

[00:49:54] **Participant 3:** Very well. This didn't come into effectively. We can leave this one now. Let's try and focus [00:50:00] on the, uh, well, I think some login too. How can I, I thought I changed it.

[00:50:11] **Participant 3:** Oh, okay. That's okay. Cool. So I want to add a link. So.

[00:50:21] **Moderator:** Not necessarily a link, just a, an element from me about

[00:50:25] **Participant 3:** could it be that I just drag it? No, it'd be nice if I could just drag it. Then there'll be like that link or something similar intuitive. Um,

[00:50:41] **Participant 3:** does it mean animated transition? No. Yeah. I dunno. I don't know what else.

[00:50:47] Uh, very cool.

[00:50:53] **Participant 3:** No, no, no, no, no, no. Uh, I don't know. [00:51:00] Oh no. There no site venue. Um,

[00:51:12] **Participant 3:** uh,

[00:51:18] **Participant 3:** no. That just makes it pretty. Um, I still wanted to flip this upside down, by the way. I still can't, we can do this at the end. Yeah, I, uh, well I want to add like a simple link or something to the page. It's more like a blog element, not more link. Um, or can I just put text in from a, a blog and then now it count as a blog elephant?

[00:51:46] **Participant 3:** That's the manual way of doing it. Yeah. It seems a bit, it seems a bit sad. There is a better way to do it. Oh, okay. Um, pull up my sleeves here. I get real game up. Um, [00:52:00]

[00:52:07] **Moderator:** link. Yes.

[00:52:09] **Participant 3:** Yes. Uh, hang on. Uh, what, uh, uh. Okay. No, this isn't I just section.

[00:52:25] **Participant 3:** Okay. We're on the page. Uh, link to, could I link to another page of this? A page? There we go. Uh, choose page log.

[00:52:45] **Participant 3:** Okay. Do that. Where,

[00:52:51] **Moderator:** so now go on your menu log and then new link that leads to log again.

[00:52:57] **Participant 3:** Uh, no, this isn't what I wanted. [00:53:00] I just wanted something on the page. Uh, what about, uh, uh, uh,

[00:53:09] **Participant 3:** add an app? No. Add an image.

[00:53:16] **Moderator:** I guess you can squeeze shorter

[00:53:17] **Participant 3:** than, but no. Yeah. Uh, it's very important. And then, I dunno. Um,

[00:53:33] **Participant 3:** it was definitely,

[00:53:36] **Moderator:** uh, that's more, we're not getting that. Okay. Yeah.

[00:53:39] **Participant 3:** Making sure. Well,

[00:53:50] **Participant 3:** Hmm.

[00:53:59] **Participant 3:** Button.[00:54:00]

[00:54:04] **Participant 3:** So these are different categories

[00:54:06] mm-hmm.

[00:54:07] **Participant 3:** Of things that you can do. Uh, you cannot.

[00:54:18] **Participant 3:** Yeah, I like that one. It's very un unnerving. Um, yeah, you can edit. It's fine.

[00:54:25] **Moderator:** Let's try to do the, yeah. Alright. Nice.

[00:54:32] **Participant 3:** Good. Okay. How do I link it? Right? Okay. Um,

[00:54:39] **Moderator:** now that can link to the

[00:54:40] **Participant 3:** above me

[00:54:40] **Moderator:** page.

[00:54:41] **Participant 3:** Yeah, yeah, yeah. Um, uh, about me. Yeah. Perfect. Okay. I'm gonna copy and paste that. I guess that's very, very

[00:54:54] **Moderator:** creative way of, you know, um, linking [00:55:00] your visitors to your value page.

[00:55:02] **Moderator:** Yeah, yeah. Yeah. Uh, very,

[00:55:04] **Participant 3:** very important. Um, let's try and add, um. A blog element. A blog element. All right. Let's Plus add elements, right? I get it. Because it's called Elements. Um, uh,

[00:55:23] **Participant 3:** blog, right? Here we go. Uh, sidebar. Yeah. Gimme a sidebar. Nice. You got, uh, no, no, no, no. Uh, okay. He's looking, he's looking at the blog. He's, it's very interesting. All right. There we go. Not enough. Okay. I think, hang on.

[00:55:55] **Moderator:** Uh, it's up to you. Whatever else you want. Add, do you want to [00:56:00] slap a big title or, or slogan maybe to your website or.

[00:56:05] **Moderator:** Up to you.

[00:56:07] **Participant 3:** Um, I think this is a very pretty site. Uh, it's very gorgeous. Um, very colorful. Yeah. Yeah. Yeah. Um, I could change the shape of this image. Oh, okay. What's this? Ah, this is actually Justin kind of wanted border AI image editor.

[00:56:40] **Participant 3:** Uh, hang on, hang on. Uh, cut out. Uh, no. Uh, no. Uh uh This is okay. This is going so slow.

[00:56:54] **Participant 3:** Let me get round. What does background do?

[00:57:00] No, that's horrible. Okay. Crop. Can I make it round? I can't make a round border. I just wanted to make it round a nice little round picture of my spirit animal. Okay. Um, I guess I'll have to cancel because it's

[00:57:25] **Participant 3:** ah, not really, uh, I drive unless decorative does. No. Um, I'm gonna cancel this, unfortunately. Uh, uh, leave,

[00:57:38] **Moderator:** maybe just add a title, uh,

[00:57:39] **Participant 3:** um, or more like a slogan to your website.

[00:57:43] **Moderator:** An attractive slogan.

[00:57:46] **Participant 3:** Uh, okay. An attractive slogan. I'm trying to think what counts as attractive for a slogan,

[00:57:58] **Participant 3:** uh, [00:58:00] heading to right.

[00:58:25] **Participant 3:** There we go. No, I spelled it wrong. Uh, there you go. Alright. Very, very, very highend, uh, right up there. Perfect. Um,

[00:58:37] **Moderator:** I don't know if you noticed, 'cause I section

[00:58:39] **Participant 3:** is quite interesting. Mm-hmm.

[00:58:41] **Moderator:** Uh, it has

[00:58:47] **Participant 3:** these really, really interesting, um, you know, PayPal options.

[00:58:57] **Participant 3:** Can't find it now, but it have like, um.[00:59:00]

[00:59:05] **Participant 3:** Like Word. Oh, then there, yeah. Ah, okay.

[00:59:25] **Participant 3:** And kinda it matches with your color schemes.

[00:59:31] **Moderator:** I'm sorry. That's fine. It's your website. Yeah.

[00:59:36] **Participant 3:** Yeah. Uh, all right. Yeah. Very good. It's very, if you want to, you can preview your side and I want to remove the vertical. How do I remove the, please put, um, uh, it only had, and, uh, change for the design
[01:00:00] do not exist.

[01:00:04] **Participant 3:** Okay. Nope. This, oh, I cool. Ignore that. It's all good. I have squished it as much as possible. Possible. Yes. Posh, uh, I only want hide the front. Right? There we go. Right. Free view. Let's see. Whoa. Can I scroll down if it is still there? How dare it? It's, it's squished, but it's there. That is a complaint. I also really

[01:00:34] **Moderator:** click on anything on your side.

[01:00:37] **Participant 3:** I also want to complain about the head actually. Yeah, just maybe I should just remove the header if it's just gonna be that thing that's lingering up there. Um, but yeah, this is home. If I click it, I'm there. Uh, his eyes don't look at me when I hover over it. I'm very, oh, there we go. Took him a sec. It's very ominous how darkly I get when you [01:01:00] question.

[01:01:01] **Participant 3:** Yeah. Uh, okay. There he is. Uh, so very good. That's working. Uh, that is also working. I can't, hang on. There's your Wall Street, uh, wall Street book. Very, very highend. Very elaborate. Oh, high quality. Well, uh, but yeah. Okay. I approve of what I was, and you can publish it somewhat able to. Do I still, uh, maybe I'm too determined to flipping buttons upside down.

[01:01:37] **Participant 3:** Um, the fact that I, I'm surprised that you can't just interact with, uh, these things. Well, you can't move them around. You can't rotate them, which I'm surprised by. I thought rotating would've been like a fall. To go abstract from your web design, but I guess it wants to stick to modern design flows.

[01:01:56] **Participant 3:** Modern design sheets, which as it [01:02:00] Alright. Publish v. Wow. We've got a very, you can view I bullet. Whoa. Ah, the eyes appeared beforehand. Yeah, there you go. He is, I'm very happy with his eyes. Uh, I'll go straight to my and dad must ask. Hi. Whoa, I did it. Yeah, I made, I made a thing. Uh, okay. So what now since, uh, the, the website has been made should have made that, so what's the impression of, of wakes fine.

[01:02:37] **Participant 3:** Like it does a job, um, takes it getting used to, uh, yeah, this is like without any prior knowledge. Um. It's not like it's horrible, it's just, eh, I don't get excited because there are some options which I would assume would be there, which aren't there. Uh, like flipping buttons upside [01:03:00] down and, uh, I don't know.

[01:03:03] **Participant 3:** Oh, general stuff. So now we can go to the next page. Oh, shoot, sorry. Uh, that is page six, where you can, um, tell us a

[01:03:15] **Moderator:** bit

[01:03:15] **Participant 3:** more about your experience. Ah, right.

[01:03:17] **Moderator:** Uh, there are some 10 statements for you. Uh, you can assess each and every one of them

[01:03:24] **Participant 3:** from one to five, depending on whether you stroke and disagree or strongly.

[01:03:27] **Participant 3:** With me. It's all good. My pen fell down. I'm gonna Oh, yeah. Ly get up. That's the, there we go. Okay. So that's only, yeah. Uh, I would like to use the sequence. System frequently? Um, not really a system

unnecessary, uh, not really. We actually, yeah, because I wrapped around and so
[01:04:00] Reaction, thought the system was easy to use?

[01:04:06] **Participant 3:** Yeah. Was simplistically design it. Some points I think I would need sport technical person to be able to use the system. No, I'd need a sport. Google. Um, usually that's what I rely my, my training trooper. Is it strictly a person or is this meant to include Google or such to use? Because I feel like since it was made in 19, in the 86, it would mean you could include, I guess Yeah, yeah, yeah.

[01:04:39] **Participant 3:** I, I assume be, and I would say, or maybe. Yeah, I would say, uh, two if I get stuck and then I just go get 'em. It's not like a, oh, I need to religiously go back and forth. Uh, 'cause when I get used to it, when I know it's like, oh, you, I know. Um, I found a various functions in the system, but well integrated. [01:05:00] Uh, yeah, yeah, yeah.

[01:05:04] **Participant 3:** Uh, it's just easy to use. Um, too much inconsistencies. No, it was consistent. I give it that. Um,

[01:05:14] **Participant 3:** um, I imagine most people would want to use the system very quickly. I think I'm square. So kind of, uh, found the system very cumbersome to use. Yes. Uh, it's maxed out because, uh, I did find it cumbersome, even though I think I really shouldn't have. But anyway, um, I felt very confident using the system. No, this is my first time.

[01:05:41] **Participant 3:** Uh. And I needed to learn a lot. Please do I get going with the system? No, I just sort of went for it. So it's just quite a few points.

[01:05:52] **Moderator:** Alright. Okay. Um, yeah, the next page is for me to do,
[01:06:00]

[01:06:00] **Participant 3:** uh, and I forwarded another separate

[01:06:01] **Moderator:** thing. Yeah, I'm gonna just swap it. Alright. Um, okay, well I think that's all. Thank you.

[01:06:09] **Moderator:** Thank you very much for your time and I'm gonna stop the recording.
