P1 - Session Recording - K2336620-CI6315

[00:00:00] **Moderator:** Okay. Okay, let's start. Uh, so hello, this is, uh, participant number one, uh, for the usability testing session for Wix. Um, hello. Hello. Hello. I hope you can hear me okay. Yes. Uh, yes, I can hear you. Perfect. We can start by having a look at the participant booklet that I've made for you. So here house is gonna go, uh, the fir the very first thing we have to do is a con, a consent form.

[00:00:42] **Moderator:** Have a look at this, uh, in your own. Yeah. Okay. After that we've got the participant questionnaire, uh, where we we're gonna get some more information about you. And after that we can do a few tasks. So have a look at the consent form [00:01:00] first, which is um, yeah, on this page.

[00:01:02] **Participant 1:** Yeah. This is page number three.

[00:01:04] **Moderator:** Yeah.

[00:01:05] **Participant 1:** Okay.

[00:01:06] **Moderator:** Feel free to, to read everything

[00:01:11] **Moderator:** before you sign

[00:01:13] **Participant 1:** so that the session should take approximately 45 minutes.

[00:01:19] **Moderator:** This does include the documentation itself, so you have more than enough time to read through everything and ask if you have any questions.

[00:01:32] **Participant 1:** Okay. I give permission

[00:01:35] **Moderator:** for the audio one. Alright.

[00:01:39] **Participant 1:** I should sign

[00:01:49] **Moderator:** And under that your name, you have to get Yes my name.

[00:01:55] **Participant 1:** One moment.

[00:01:58] **Moderator:** I think I'll have to hide this. [00:02:00] Yeah.

[00:02:03] **Moderator:** Okay.

[00:02:05] **Participant 1:** Me,

[00:02:05] **Moderator:** uh, lemme just do my part here. I'll have to make a really, really ugly signature, but Yeah. Do. And,

[00:02:24] **Moderator:** okay. So on the next page we've got a participant profile questionnaire. Uh, just, uh, one second. 'cause I need to, I need to assign a participant id,

[00:02:41] **Moderator:** so Yeah, you're number one. And we can start with demographics.

[00:02:47] **Participant 1:** Okay. Demographics.[00:03:00]

[00:03:01] **Participant 1:** Yeah. One

[00:03:32] **Participant 1:** next technologies. Mm.

[00:03:45] **Moderator:** Okay.[00:04:00]

[00:04:00] **Moderator:** If you have never used any of them, just skip to this question. Yes,

[00:04:04] **Participant 1:** I'll skip because questions I haven't used any, so

[00:04:07] **Moderator:** Yeah, that's fine.

[00:04:08] **Participant 1:** Okay.

[00:04:10] **Moderator:** Never used it. I'm skipping

[00:04:11] **Participant 1:** n number nine. Uh,

[00:04:14] **Moderator:** there's an option. Never used it, so.

[00:04:16] **Participant 1:** Oh, yeah. Okay. Never used it.

[00:04:21] **Moderator:** And you also have to skip 10. Uh, yeah, you've got question 11. Yes,

[00:04:28] **Participant 1:** I have, uh, experience with Canvas, so,

[00:04:33] **Moderator:** okay. Uh, in question number 12, a text field where you can say Canvas or maybe less other.

[00:04:49] **Participant 1:** I'm not very confident

[00:04:52] **Moderator:** at Using can.

[00:04:54] **Participant 1:** At. Using can? Yes.[00:05:00]

[00:05:07] **Moderator:** Okay. Okay. Uh, so question number 13. Uh, what device are you completing this test from? The operating system is Windows 10.

[00:05:26] **Moderator:** And the branded model of your laptop is also View Book 15, I think.

[00:05:32] **Participant 1:** Yeah, that's right.

[00:05:41] **Moderator:** Now as far as I'm aware for question number 14, you don't use any assistive technologies, so you can just say no.

[00:05:48] **Participant 1:** Yes.

[00:05:50] **Moderator:** Like screen windows? Yeah. Oh no. Okay.

[00:05:55] **Participant 1:** Okay.

[00:05:55] **Moderator:** So this is the task instruction sheet. Um, feel free to have a look at [00:06:00] it. Um, just work task by task. Uh, once you complete task one, move to task two, and so on.

[00:06:08] **Moderator:** Um, obviously try to attempt all the tasks without, uh, getting any help, unless you get completely stuck, in which case, um, just say that you need some help and I'm gonna help. Um, also you are encouraged to

talk aloud while performing the tasks, so, um, communicate any assumptions, expectations, or thoughts and feelings you may have.

[00:06:33] **Moderator:** Uh, 'cause after all, what we're testing here is not you, but the actual usability of the, uh, system that, that we're testing. Uh, obviously there's no time limit, uh, but if you want to move on, uh, for many tasks, you can. You can just say that and yeah. Any questions about,

[00:06:57] **Participant 1:** um, I don't have questions [00:07:00] for now, so.

[00:07:01] **Moderator:** Okay, thanks. I'll start

[00:07:03] **Participant 1:** with task one.

[00:07:11] **Participant 1:** Okay. Now task one. We should get started.

[00:07:23] **Moderator:** You have considered and decided to start a simple blog for your website where you tell stories of your professional studies. Um, so what you need to do is first access Wix, then create an account and begin creating your first manual non-AI generated 'cause they have that option. Uh, it has to be manual, manually created website on a topic, uh, on the topic you chose by making a homepage with a title and a header, uh, uh, with a menu for, for navigation.

[00:07:55] **Moderator:** Um, yeah.[00:08:00]

[00:08:00] **Participant 1:** Okay.

[00:08:02] **Moderator:** Obviously for, for any of the texts on the screen, um, including the, it has, that has more to do with task two and onward, but, uh. For any of the texts that we need to create in that, uh, website, uh, you can use charge GPT or anything to just generate it for you, uh, so that we don't waste time just writing stuff, I guess.

[00:08:31] **Moderator:** So, yeah.

[00:08:31] **Participant 1:** Well, okay. But I hope to not use and to create everything by myself, so I'll try. No,

[00:08:40] **Moderator:** there's no point in just wasting time doing that. So

[00:08:49] **Moderator:** let's, good overview.

[00:08:55] **Participant 1:** Okay.

[00:08:58] **Moderator:** In one of the tasks we need, we'll need [00:09:00] to create three articles. So that's gonna take some time. So it might be easy just to, uh, use, uh, like text, text generated by charge, otherwise.

[00:09:12] **Participant 1:** Okay. So I'll think when I.

[00:09:15] **Moderator:** Yeah. Uh, because it's, it's gonna be too much writing anyway.

[00:09:20] **Participant 1:** Okay.

[00:09:23] **Moderator:** And the idea is just to text, uh, test the whole layout kind of stuff, not the, you know, the text writing itself.

[00:09:32] **Moderator:** So, yeah. Uh, you can start with X in weeks, creating an account in beginning your first manually created website on your topic.

[00:09:47] **Moderator:** Okay.

[00:09:55] **Participant 1:** Okay. For now, it seems [00:10:00] Okay, so now I should put my email.

[00:10:02] **Moderator:** Yeah. Uh, by the way, uh, we are not seeing the password, so don't worry about that. You can use any passwords you want.

[00:10:10] **Participant 1:** Okay. That's, that's good. Yeah. So.

[00:10:22] **Participant 1:** Okay. I'll give one of my emails because I have,

[00:10:29] **Moderator:** oh, also, if you prefer, you can use socials. It's up to you.

[00:10:44] **Participant 1:** One second. Yeah, that's fine.

[00:10:46] **Moderator:** Take your time.

[00:10:49] **Participant 1:** Okay, so[00:11:00]

[00:11:05] **Participant 1:** I'm confirming, oops.

[00:11:10] **Moderator:** I think you, it won't let you, you'll have to,

[00:11:13] **Participant 1:** yeah. It won't let easier. It's okay. No problem. I'll just write it so

[00:11:20] **Moderator:** it's being nasty.

[00:11:22] **Participant 1:** Yeah. Well, okay. Just write any password. Connect two weeks. It should let you confirm email by just

[00:11:31] **Moderator:** clicking. Yeah, by just doing a copy and pasting. Yeah. Yeah. That's fine. Yes.

[00:11:36] **Participant 1:** Just by pasting. Okay. Now let's choose a password you see.[00:12:00]

[00:12:20] **Participant 1:** Okay, so I am creating a website for myself.

[00:12:25] **Moderator:** Yep.

[00:12:25] **Participant 1:** My business or a friend or for client, freelancer or an agency. No, it's for yourself. It's a good question for myself. So let's get started.

[00:12:41] **Moderator:** So now, yeah,

[00:12:43] **Participant 1:** without chat.

[00:12:44] **Moderator:** Yeah.

[00:12:47] **Participant 1:** Okay.

[00:12:47] **Moderator:** Having as a requirement, non AI generated, so we need to do is a simple blog for your website where you tell the stories of your professional studies.[00:13:00]

[00:13:03] **Participant 1:** I can choose a homepage with the title and Heather with menu. Okay, let's see what the, I wanna create a block, I think. Yes.

[00:13:19] **Participant 1:** Maybe entertainment.

[00:13:23] **Moderator:** Okay.

[00:13:33] Hmm.

[00:13:46] **Participant 1:** What would you like to call your website?

[00:13:52] **Moderator:** So what, what is it gonna be about? Literature or?[00:14:00]

[00:14:00] **Moderator:** Maybe literature reviews.

[00:14:01] **Participant 1:** Okay. Maybe, maybe about, um,

[00:14:05] **Moderator:** de literature. I can, I can

[00:14:10] **Participant 1:** give a name. Okay. Let's make it like that, Sophie place.

[00:14:16] **Moderator:** Oh, okay.

[00:14:17] **Participant 1:** So that sounds good. Okay. Website name can always edit already.

[00:14:29] **Participant 1:** Okay. Hmm.

[00:14:39] **Participant 1:** Now I should, uh, think about the goals for this site. I haven't thought about it, but it's good that they ask you.[00:15:00]

[00:15:02] **Participant 1:** I think I can choose more than one.

[00:15:07] **Moderator:** Yeah.

[00:15:11] **Moderator:** Okay.

[00:15:31] **Participant 1:** Give your site more functionality Business solutions recommended for you.

[00:15:40] **Participant 1:** Okay. Um,

[00:15:41] **Moderator:** it's up to you what you're gonna select. I don't

[00:15:44] **Participant 1:** want to, I don't want to add any apps for now.

[00:15:52] **Moderator:** Okay. Uh, so, so Instagram is selected by default, so if you want to unselect it, [00:16:00] that's fine.

[00:16:01] **Participant 1:** Maybe forms yes, but not Instagram. Okay. And I don't understand what is about Discover more apps. If I choose one, what would happen?

[00:16:20] **Participant 1:** It's not, it's not clear if this, what I'm clicking on. For instance, events. If I click on it, is it that I would discover this in the future? Or is it that it would help me about my personal block? I don't understand it. Yeah, it's maybe step three and. There are things that are not very clear for me. Yep.

[00:16:53] **Participant 1:** But let's continue. So[00:17:00]

[00:17:09] **Participant 1:** welcome to your dashboard. Maybe this is, maybe this is already task number two.

[00:17:20] **Moderator:** Oh, we're still on one because we need to create like a title for the on the webpage itself and the header.

[00:17:26] **Participant 1:** Yes. Okay.

[00:17:27] **Moderator:** And the header,

[00:17:29] **Participant 1:** final hours, 50% off sale. So I guess there another option that is business plans. That is maybe eight.

[00:17:42] **Participant 1:** And now I'm using the free.

[00:17:46] **Moderator:** This is just an A You can close there. It's a bit in your face, isn't it?

[00:17:54] **Participant 1:** Okay. Yeah. Let's connect the custom domain.[00:18:00]

[00:18:02] **Moderator:** So we now need to, um, to make the whole page with the title and the head.

[00:18:09] **Participant 1:** So I should chose the domain and when people search for it. No, you can

[00:18:16] **Moderator:** skip that for now. We just need to make a homepage and with the title on the header that, that's optional there.

[00:18:28] **Participant 1:** So connect the main. Okay.

[00:18:37] **Participant 1:** Oh, it's available.

[00:18:38] **Moderator:** Yeah, but it's paid so you can skip that step. You don't need to do that.

[00:18:45] **Participant 1:** Okay. And what would happen if I choose, make it yours?

[00:18:52] **Moderator:** Uh, it's gonna prompt you to pay basically.

[00:18:56] **Participant 1:** Okay. I'm skipping this. So write your flows [00:19:00] blog post.

[00:19:03] **Moderator:** This is for a blog post. However, that's a later task, not for now.

[00:19:09] **Moderator:** So you can go back.

[00:19:10] **Participant 1:** Okay. So I'm confused here. Um, set up home, maybe Home. No, it's not home. How should I move to

[00:19:30] **Participant 1:** Okay.

[00:19:34] **Participant 1:** Set up? Maybe? I'm not sure. Yes, set up.

[00:19:41] **Participant 1:** Okay.

[00:19:46] **Moderator:** We need to make their homepage with the title ahead, Heather.

[00:19:59] **Participant 1:** I guess [00:20:00] next step is design your website then.

[00:20:07] **Participant 1:** Let's see.

[00:20:16] **Moderator:** Okay. And as per instructions from the template, from the templates, uh, you're only allowed to use the, uh, one in the blank template section. That's, yeah.

[00:20:30] **Participant 1:** Blank templates only. Yes, that was in the instructions. Okay.

[00:20:36] **Moderator:** Blank templates start from scratch.

[00:20:40] **Participant 1:** Okay, so we get options, which is good.

[00:20:43] **Moderator:** Uh,

[00:20:45] **Participant 1:** uh, all templates.

[00:20:47] **Participant 1:** I don't know if they're paid or not, but next time

[00:20:53] **Moderator:** we need to start, start from scratch basically. Uh, the first one[00:21:00]

[00:21:02] **Moderator:** I, no, um, no, I meant the, the very first one that, which is start from scratch as, um,

[00:21:11] **Participant 1:** start from scratch. Okay. Yes. Yeah. That's why I should always read several times instructions and PA

[00:21:31] **Moderator:** customized previous design because Yeah. Customize, uh, because we selected, yeah. Yeah. That's.[00:22:00]

[00:22:03] **Participant 1:** I think so AI is included here.

[00:22:09] **Moderator:** It's all over the places.

[00:22:12] **Participant 1:** Yes.

[00:22:23] **Moderator:** I guess we need to wait for, no, I don't

[00:22:25] **Participant 1:** know. Um, if I should wait or move on. I don't understand what.

[00:22:39] **Participant 1:** Start by generating site.[00:23:00]

[00:23:09] **Participant 1:** So they're choosing the elements for you because we choose previous design, I guess.

[00:23:23] **Moderator:** The thing is we didn't select to use ai, did we? So it's kind of interesting to see that it's still forwarding to

[00:23:29] **Participant 1:** Yes. I would say that.

[00:23:31] **Moderator:** However,

[00:23:32] **Participant 1:** I didn't choose ai, but,

[00:23:36] **Moderator:** but it's still

[00:23:36] **Participant 1:** AI coming up. AI is everywhere because on the next steps, they're giving you option that is not included ai, but however they're using ai.[00:24:00]

[00:24:03] **Moderator:** Nice. So it made us side design even though we were not planning to do, to do that. So let's just close this for now.

[00:24:14] **Moderator:** It's, yeah, it's interesting to see what you can do, I guess. But the idea is to just make it manually so that we can tailor it better, better to our needs. Second, we can just close this whole tab. So maybe

[00:24:31] **Participant 1:** this is the final model and I'll see what task do.

[00:24:42] **Moderator:** We can just go back to design site. I'm sorry, I need to almost have here, but, um,[00:25:00]

[00:25:02] **Moderator:** I think it's gonna get it in the right place now.

[00:25:13] **Moderator:** So we're still on task one. We need to make a homepage for the title and head on with the meaningful navigation and it's still creating ah, just one second. Sorry. I just need to, I,

[00:25:51] **Moderator:** oh, um, lemme just go by home.[00:26:00]

[00:26:31] **Moderator:** Okay, lemme do it. Uh, sorry. I just do it the hard way.

[00:26:41] **Moderator:** Hmm. Nice.

[00:26:44] **Participant 1:** Oh wow. There was a technical issue with app installation, but we installed it maybe one hour ago.

[00:26:55] **Participant 1:** What is that?[00:27:00]

[00:27:00] Hmm.

[00:27:10] **Moderator:** And there is AI again.

[00:27:14] **Participant 1:** It's interesting. AI again, I want to write it by myself. I guess AI just doesn't let me do it.

[00:27:25] **Moderator:** Yeah, let me just, 'cause it's, let's, yeah. 'cause we selected the, uh, a template that we weren't supposed to select. So now it's getting at a, uh,

[00:27:44] **Moderator:** it's just, yeah, start over with this instead put up chat.[00:28:00]

[00:28:12] **Moderator:** Cool. Uh, let's just go it, uh, just a second.

[00:28:22] **Moderator:** So you selected share knowledge and build, build a community for me. Remember? Right. Okay.

[00:28:32] **Moderator:** And you selected this.

[00:28:38] **Moderator:** Okay. Let's keep going.[00:29:00]

[00:29:08] **Moderator:** And we need to use the blank white template.

[00:29:49] **Moderator:** Okay, this is where, uh, we should have gotten in the first place. Uh, so we are not gonna make use of this AI stuff, so we can also close there. [00:30:00] And let's just go back to, to the task,

[00:30:08] **Moderator:** task requirement, which is, um, I'm just gonna make a homepage. So this is our landing page here. Um, with a title and the header with the man navigation. So we need to add a title and maybe

[00:30:24] **Participant 1:** add element.

[00:30:29] **Participant 1:** Let's see titles. Okay, we have different phones choosing some element title

[00:30:45] **Moderator:** to, you might wanna call it after your websites of your places or whatever you wanna write

[00:30:55] **Moderator:** in that title.[00:31:00]

[00:31:18] **Moderator:** And that's with every website title. We wanna put it in the upper left corner of the screen.

[00:31:27] **Participant 1:** I want to see animation and effects.

[00:31:29] **Moderator:** Oh,

[00:31:33] **Participant 1:** oh, there good. Okay. Maybe blur,

[00:31:51] **Moderator:** if we can just put it in the, in the header, which means in the upper left corner somewhere,[00:32:00]

[00:32:00] **Participant 1:** and it's not.

[00:32:09] **Participant 1:** Oh, now I understand. So this is the home page.

[00:32:16] **Moderator:** So this is your horizontal menu

[00:32:18] **Participant 1:** in the menu. Okay. Let's see. I want to change it.

[00:32:28] **Moderator:** Let's just reposition things so that the, uh, the title is on the left, on the upper left, the menu is on the right.

[00:32:44] **Participant 1:** I want to change the font of home and block, but

[00:32:52] **Moderator:** we can leave that for the end if you want. Let's leave it as it is.

[00:32:57] **Participant 1:** Okay.

[00:32:58] **Moderator:** Let's just move it to [00:33:00] the right and the,

[00:33:05] **Participant 1:** hmm.

[00:33:11] **Participant 1:** So I think it's okay.

[00:33:14] **Moderator:** Yeah. What I'm, yeah. Sorry. What I meant was more like, uh, move this menu over here and maybe, so Sophia places over here on the left.

[00:33:43] **Participant 1:** Hmm.

[00:33:57] **Moderator:** Lemme know if you need any help at, at any point [00:34:00] and.

[00:34:32] **Participant 1:** Okay. I finally get it. I want to change comments

[00:34:45] **Participant 1:** to this one.

[00:34:56] **Participant 1:** Um, as a person who [00:35:00] uses this for first time, I didn't. I don't get the lines. I mean, maybe I, I'm setting font now, but later in the final version it'll look different.

[00:35:22] **Moderator:** There's an option, uh, on the screen to see how it's gonna look in the, in the final option. Preview. Preview,

[00:35:30] **Participant 1:** yeah. Yeah. Okay. So,

[00:35:36] **Participant 1:** okay. So there is that option

[00:35:44] **Participant 1:** that books that they have that option. Maybe if the bottom preview was in the left side of the screen nearby the tools.[00:36:00]

[00:36:04] **Participant 1:** It is. It is fine.

[00:36:08] **Moderator:** Yeah. Okay. As what I meant was more like, Hmm. Where's the head gone now?

[00:36:29] **Moderator:** Give a second to load.

[00:36:52] **Moderator:** Yeah. Uh, sorry.

[00:36:57] **Moderator:** Uh, just, just one moment. One second. [00:37:00] What I meant was, uh, like, make this over here and put this over here.

[00:37:19] **Moderator:** 'cause we all need to create a, a ahead of a, uh, website for now.

[00:37:27] **Moderator:** And this is pretty much task one. Um, if you want to, you can move to task two. Now.

[00:37:35] **Participant 1:** Finally, task two.

[00:37:37] **Moderator:** So you want to introduce your site visitors to yourself so they know what publications they're seeing. So you need to add a new page, a simple about new page, um, using the blank template. So you need to, the, the very first step is to add a new page because this is, we're on the [00:38:00] homepage at the moment and we need to create a new page that we can go about me.

[00:38:13] **Participant 1:** Okay. Maybe add elements? No.

[00:38:33] **Participant 1:** Okay. Now I don't know how to make another,

[00:38:41] **Moderator:** uh, this is the block page that's been already generated for you, but this is for task three. So.

[00:38:55] **Moderator:** How we just need to create a new page.[00:39:00]

[00:39:08] **Participant 1:** Hmm. I wanna delete

[00:39:12] **Moderator:** No, no. You can leave this for now. Just, just try to create a new page.

[00:39:19] **Participant 1:** Okay.

[00:39:42] **Moderator:** This is another. Page that's been already generated for you. We are gonna deal with this. No, no, no. We're gonna deal with this in the next task. Uh, yeah.

[00:39:56] **Participant 1:** Interesting. I I couldn't find it. [00:40:00] I couldn't find how to return to make a new page. So, should be a new page.

[00:40:10] **Moderator:** Yeah, it should be a

[00:40:11] **Participant 1:** Yeah. About me page. But maybe add section

[00:40:17] **Moderator:** That's a section in the same, within the same page. So it's not that,

[00:40:39] **Moderator:** do you need.

[00:40:43] **Participant 1:** Maybe

[00:40:45] **Moderator:** so. Yeah. Um,

[00:40:48] **Participant 1:** um,

[00:40:50] **Moderator:** I think there are two ways in which you could do this. One is, um, you almost got it when you, when you got into that, uh, pages [00:41:00] list, you have the option manage pages.

[00:41:03] **Participant 1:** Oh yeah. Manage pages. Pages. It's a little bit confusing for me.

[00:41:08] **Moderator:** And then now

[00:41:09] **Participant 1:** add menu item.

[00:41:12] **Moderator:** It's not a page though. Oh yeah.

[00:41:15] **Moderator:** You can also make it, uh, it's gonna be blank, so select blank here. Blank page.

[00:41:30] **Moderator:** And we need to create it about me.

[00:41:36] **Moderator:** We need to name it to be about me.

[00:41:46] **Moderator:** Okay, so now what we can do is download a sample photo from the internet. Um, let's say,

[00:41:58] **Participant 1:** so now, and it's send it, [00:42:00]

[00:42:00] **Moderator:** yeah. We're now in a new page that's, that's empty and we're gonna populate it with Yeah. Uh, lemme just,

[00:42:09] **Participant 1:** I should go. No, I lost it.

[00:42:15] **Moderator:** Yeah, no, no, it's fine. Uh, let me just, so can I have some control over the mouse?

[00:42:22] **Moderator:** Okay. Uh, we're going ahead to Google.

[00:42:32] **Moderator:** We're gonna double the sample portrait 'cause I'm not allowed to use your actual. Actual face for this. So we're gonna save it, let's say to the desktop. And as per the task, we need to add a sample image. Um, so we need to add that image to the website and [00:43:00] then add some texts for that about your section.

[00:43:05] **Moderator:** Um, so yeah, that image that we downloaded, it's on the desktop and we need to add it to the, the page that we are currently on. This is the homepage. You switched pages. I

[00:43:18] **Participant 1:** know, I know it's the homepage, but we need not, I dunno why it's difficult to find again, the,

[00:43:28] **Moderator:** let's go back to the, to the about me page.

[00:43:39] **Moderator:** Okay, we're on the above me page. Now we need to add that image. How are we gonna add a new image?

[00:43:46] **Participant 1:** Oh, about. Okay. Maybe add. So

[00:43:58] **Moderator:** we've got lots of options here. [00:44:00] Why not?

[00:44:15] Hmm.

[00:44:26] **Participant 1:** Huh. I understand. Okay.

[00:44:48] **Moderator:** No, this is for background. This is, this is a different thing.

[00:44:53] **Participant 1:** I had an idea of, uh, just putting image of me [00:45:00] on a background, but

[00:45:03] **Moderator:** no, we need to make it like a, like a simple about me page. So it, uh, you know, your face doesn't need to be all over the, the screen. It just needs to be in a small image. Uh, this is for the background, so,

[00:45:24] **Moderator:** but this is for changing the background, so let's just close this. Okay.

[00:45:28] **Participant 1:** I, I'm moving. Um. I don't see the button to add files from my laptop

[00:45:43] **Moderator:** anyhow,

[00:45:49] **Participant 1:** so it's not at section.

[00:45:56] **Moderator:** Okay, I'll give you a clue 'cause you are taking some time with this. [00:46:00] Uh, you did, you did the right thing. When you pressed add elements, it was a step in the right direction basically.

[00:46:13] **Participant 1:** So

[00:46:19] **Participant 1:** create new form, maybe start from scratch to create your own custom form. It's not clear what form did you see?

[00:46:46] **Moderator:** No, it's not that. This is for creating forms and for adding forms to our webpage, we need to add an image instead. So, um,

[00:46:58] **Participant 1:** no. So I want to [00:47:00] delete it. Yes,

[00:47:03] **Moderator:** right click and delete. Was that easy?

[00:47:07] **Participant 1:** Uh, the deleting was easiest

[00:47:15] **Participant 1:** in,

[00:47:15] **Moderator:** oh,

[00:47:15] **Participant 1:** so it's here on image import images. Oh, no, no. Upload images. Okay.

[00:47:27] **Moderator:** Alright. You got it.

[00:47:29] **Participant 1:** Okay.

[00:47:32] **Moderator:** And it's, yeah, it's the very last file there.

[00:47:35] **Participant 1:** It's the last file.

[00:47:40] **Moderator:** It's loading.

[00:47:44] **Participant 1:** It's loading. I think it's, it's okay. It's a fast load, so, okay, here it is. And now add to page,[00:48:00]

[00:48:02] **Participant 1:** there are some options about adjusting and needed, but I'm not editing, so yeah,

[00:48:08] **Moderator:** I just add it.

[00:48:10] **Participant 1:** Just add to page

[00:48:14] **Moderator:** so it's a bit too big. You might need to resize it.

[00:48:31] **Moderator:** Good. Let's just add some text on the side.

[00:48:39] **Participant 1:** Okay. Now, so we

[00:48:40] **Moderator:** add in an image. Now we need to add section

[00:48:43] **Participant 1:** again.

[00:48:45] **Moderator:** Is it section or is it an element?

[00:48:48] **Participant 1:** No, no, no page. But um,

[00:48:53] **Moderator:** oh, it's not page, it's, we we're still working within the same page. It's just

[00:48:56] **Participant 1:** element, it's elements. But [00:49:00] after I put the image, the boxes that were here, they disappear. And now I should search for them

[00:49:11] **Participant 1:** one second.

[00:49:21] **Moderator:** And that's providing a, a new section. Let's go back to the section that we're already in

[00:49:27] **Participant 1:** on the same section yesterday, just

[00:49:31] **Moderator:** on the side. Yeah. We need to just add a new element.

[00:49:56] **Moderator:** It's gonna be like a paragraph

[00:49:59] **Participant 1:** text. [00:50:00] Yeah, paragraph.

[00:50:05] **Moderator:** I guess we can just leave it as it is. We don't need to. Yeah, it still does the job. I mean, we can easily replace that.

[00:50:17] **Moderator:** Yeah. Um, I guess that's all for task two then for task three then, which is you have now set up most, most of the basic functionality of your website and you're ready to make the main thing, the block where you can write your articles. So what you need to do is, uh, set up the block page that is going to list all the articles you write, change the layout and colors to your liking of both the articles list page and the individual articles page.

[00:50:53] **Moderator:** So basically customize it and make it look the way you want it.[00:51:00]

[00:51:02] **Moderator:** So that's a different page. We, we created the above page.

[00:51:54] **Participant 1:** So now we're going to,

[00:51:57] **Moderator:** yeah, that's correct. [00:52:00]

[00:52:01] **Participant 1:** Now it's easier. Let's see.

[00:52:07] **Moderator:** So as you can see, even though the task says add. When you select it that, that you're gonna make a blog. At the beginning, at the very beginning when you were creating the website, um, it essentially did that for you. So you don't even need to add a blog page 'cause it's already been added for you.

[00:52:26] **Moderator:** So your only task here is gonna be just customize it and make it look the way you want it. At the moment it's just plain white and stuff, so you wanna maybe change it stuff. So I

[00:52:39] **Participant 1:** decide to change the colors and layouts. Yeah. And

[00:52:45] **Moderator:** make it look fancy. Um,[00:53:00]

[00:53:05] **Moderator:** this is for adding the new section. Uh, we already have everything we. So we just need to change the, the feel of it.

[00:53:19] **Participant 1:** Okay. Settings about this one.

[00:53:32] **Moderator:** Nice.

[00:53:32] **Participant 1:** Okay. I chose, uh, editorial layout because it seems more beautiful to me.

[00:53:42] **Moderator:** And now, um, sorry. Um, you can both go back to settings.

[00:53:52] **Participant 1:** Okay.

[00:53:57] **Moderator:** There's also this design thing. You can [00:54:00] also use that to change maybe some, some of the colors, some of the buttons.

[00:54:08] **Participant 1:** Oh yeah. I change the.

[00:54:32] **Participant 1:** Okay, I can see the button for confirming that I want to change the colors. Um.[00:55:00]

[00:55:31] **Moderator:** This is only changing the buttons, but we also wanna change the posts itself. Oh, sorry.

[00:55:40] **Participant 1:** Yeah. Don't understand, uh, these ratings for, what are they?

[00:55:48] **Participant 1:** So

[00:55:55] **Moderator:** let's, for example, change the background of the, of the posts themselves.[00:56:00]

[00:56:08] **Participant 1:** Hmm.

[00:56:13] **Moderator:** Uh, this is changing the background of the whole section, I think, which, yeah. Yeah. You can do that if you want to, but

[00:56:21] **Participant 1:** yeah, I'm changing the background.

[00:56:24] **Moderator:** Uh, how do you change the color of the background of the actual posts that you've got here? The articles?

[00:56:49] **Participant 1:** I'm not sure if I have finished desk number three. Um, okay. If you need some help, I can layout [00:57:00] and the colors.

[00:57:09] **Participant 1:** The most important thing is that I changed the background. So,

[00:57:14] **Moderator:** yeah. So, um, I meant 'cause you changed the color of a button, but here we don't have any buttons so we didn't see anything changing. So, um, what I meant was in that same design section, you can select posts and you can also change the, um, there it is posts

[00:57:40] **Participant 1:** I get now post

[00:57:41] **Moderator:** background, area background.

[00:57:44] **Participant 1:** Yeah. It's not easy to find these changes when you first communicating with the, so let's change the

[00:57:51] **Moderator:** post background, let's say for something. So

[00:57:54] **Participant 1:** change the border wise, so.[00:58:00]

[00:58:02] **Participant 1:** Now change the color

[00:58:05] **Moderator:** at the post background as well

[00:58:07] **Participant 1:** at the post background. No, no, it's, no, it's fine.

[00:58:14] **Moderator:** Yeah. Um, sorry.

[00:58:19] **Moderator:** Here in the design and posts, um, you've also got post background.

[00:58:27] **Participant 1:** Post background. Okay.

[00:58:29] **Moderator:** Which you, you can also see, see

[00:58:30] **Participant 1:** maybe this one or this one. Yeah, green, green is better.

[00:58:43] **Moderator:** You've got a whole color, color palette where you can just

[00:58:52] **Participant 1:** apply and.

[00:58:59] **Moderator:** Okay, perfect. [00:59:00] That was all for task three. We can move on to task four.

[00:59:07] **Participant 1:** Yes. Moving to task four, write three articles.

[00:59:32] **Participant 1:** Add three articles with sample text and images. You can get the images from Google for convenience. I'm gonna use chat GT for you the.[01:00:00]

[01:00:27] **Moderator:** Oops, I'm gonna ask Chad g PT to generate three articles for that for you. It's started doing that, so in the meantime,

[01:00:43] **Participant 1:** um, I could write three very short articles, maybe very, very short.

[01:00:54] **Participant 1:** I'm just wondering

[01:00:58] **Moderator:** how you can create the new, [01:01:00] the new blog post. I

[01:01:00] **Participant 1:** should, yes. Again, I think I should create another page, I guess.

[01:01:20] Hmm.

[01:01:51] **Moderator:** That's for adding a new section of your website. However, we're not interested in actually changing the layout of the website, but just creating a new blog [01:02:00] post. So it has to do, it has something to do with the blocks themselves,

[01:02:24] **Participant 1:** maybe manage posts.

[01:02:32] **Participant 1:** No,

[01:02:37] **Moderator:** you actually found it. You can, you can create a new blog post. Thank you.

[01:02:42] **Participant 1:** So no published posts yet. Um, maybe this is a section that I should.

[01:02:50] **Moderator:** Just let me, uh, just one second. Can I, can I take over for a second? I'm just gonna open Notepad [01:03:00] over here. I'm gonna paste what, what charge GTS generated for me.

[01:03:10] **Moderator:** So here are your three articles that you can just copy and paste into your, so, uh, just a second now. Uh, 'cause they're together at the moment. You, you need to do them separately. Uh, uh, but, uh, sorry,

[01:03:28] **Moderator:** just one second. One second, please. Uh, I'm just gonna, one second, one second, one second.

[01:03:40] **Moderator:** It's gonna be much easier if.

[01:03:50] **Moderator:** So that was your blog post. We need to,

[01:03:55] **Participant 1:** so I would first one[01:04:00]

[01:04:02] **Participant 1:** about the doctors. Pardon? These are

[01:04:07] **Moderator:** gonna be three separate articles. The, um, the first line is the, the title of the article and what follows is the, the actual content of the article. So that doctor's garden, that quite oasis behind Alexander Nevsky should be the title of the post and the West should be the text.

[01:04:32] **Participant 1:** Yeah. One second.

[01:04:35] **Moderator:** We can copy and paste it. You don't need to write anything.

[01:04:47] **Moderator:** Yeah, but this should be a title. At the moment you are writing the article's body.

[01:04:58] **Participant 1:** Oh yes.[01:05:00]

[01:05:04] **Moderator:** Nice.

[01:05:06] **Participant 1:** Now it's fine. And, okay,

[01:05:08] **Moderator:** rest of the, the article has to be the what follows.

[01:05:13] **Participant 1:** Just one second.

[01:05:27] **Moderator:** Nice.

[01:05:30] **Moderator:** So how do you save it? Um,

[01:05:32] **Participant 1:** now I should save it. Yes.

[01:05:36] **Moderator:** Okay. And you can publish it.

[01:05:42] **Participant 1:** Um, maybe. Next page?

[01:05:47] **Moderator:** No, you can publish it. It's fine.

[01:05:56] **Moderator:** Um, no, no, no. Just close this [01:06:00] 'cause we're gonna write more article maybe

[01:06:01] **Participant 1:** later.

[01:06:04] **Moderator:** Okay. This is the first blog post. Let's do the second, the third.

[01:06:09] **Participant 1:** Okay. Maybe create new

[01:06:19] **Participant 1:** again.

[01:06:24] **Moderator:** Uh, it's only the first line. Yeah. Okay.

[01:06:35] And the.

[01:06:45] **Participant 1:** Okay, I want to change the font size here and interesting. [01:07:00] I wonder if there are different font.

[01:07:07] **Moderator:** Don't need to worry about that. We only need to create the articles themselves. So just hit publish and maybe switch to the next one.

[01:07:15] **Participant 1:** Save and then publish.

[01:07:28] **Participant 1:** And now the third one.

[01:07:54] **Participant 1:** Okay,

[01:07:57] **Moderator:** now we need to publish it.

[01:07:59] **Participant 1:** So I [01:08:00] to save is, which is good.

[01:08:03] **Moderator:** Now publish it. Oops.

[01:08:20] **Moderator:** Okay. Very nice. Um, so we've done task four. This was also task four. For task five, we need to finalize our homepage. So we have now decided to make your homepage functional by adding some presentable snippets from your blog. Um, your task is to populate the homepage with some presentable elements from your blog and add um, any text or images maybe that you wish to include a short introduction and whatever else you would expect to see on the homepage.[01:09:00]

[01:09:04] **Moderator:** We need to switch back to the homepage 'cause we're at the, at the moment we're the blog page.

[01:09:08] **Participant 1:** I know we are not at the homepage. Let's see how I'll, I'll just close that I guess.

[01:09:17] **Participant 1:** And now.

[01:09:32] **Participant 1:** Okay.

[01:09:39] **Participant 1:** Um,

[01:09:53] **Moderator:** this is the individual post page. It's not the homepage.[01:10:00]

[01:10:01] **Moderator:** Remember this navigation that you used earlier,

[01:10:09] **Moderator:** the pages,

[01:10:15] **Moderator:** there's no need to press. Pages because you've got them here.

[01:10:22] **Participant 1:** Oh, maybe,

[01:10:23] **Moderator:** yeah. Yeah. You're at the homepage, which is blank at the moment. So what we need to do is add some of, uh, some of our blog posts maybe in a, in a different layout or something,

[01:10:39] **Moderator:** which means you have to maybe add an element.[01:11:00]

[01:11:01] **Participant 1:** Okay. It's hard to find, um, one design of a homepage that I have chosen.

[01:11:18] **Moderator:** Yeah, it's an element. So you're in the right menu. Uh, and you need to add some block elements.

[01:11:31] Um,

[01:11:40] **Participant 1:** I can, I could choose an image.

[01:11:43] **Moderator:** Yeah, you can add an image. That's fine. But we also need to add some block elements.

[01:11:57] **Participant 1:** Okay.[01:12:00]

[01:12:08] Um.

[01:12:33] **Moderator:** New section. Oops.

[01:12:35] **Participant 1:** No, no, no. I don't wanna add a new section. Let's see. There is a, uh,

[01:12:40] **Moderator:** yeah, there's also an undo button similar to how you've got it at work, uh, on PowerPoint at the upper right. So, yeah.

[01:12:52] **Participant 1:** Okay.

[01:12:57] **Participant 1:** Undo. I don't [01:13:00] see the under button, but,

[01:13:02] **Moderator:** uh, it's this, sorry. Um, over here.

[01:13:12] Um,

[01:13:12] **Moderator:** but you don't need to undo anything 'cause, 'cause this is fine. We just need to add a, a new blog element.

[01:13:26] **Participant 1:** A new blog element.

[01:13:29] **Moderator:** Yeah. Which means have to add an element

[01:13:34] **Participant 1:** maybe something like that.

[01:13:38] **Moderator:** Yeah, that's fine. But don't worry about that too much. Let's try to focus on the blog itself 'cause we're a bit over time.

[01:13:48] **Moderator:** Oh no. Leave this. Leave this. This is fine. Uh, just try to add a new blog element.

[01:13:58] **Participant 1:** Okay. [01:14:00]

[01:14:00] **Moderator:** Let's try and focus on the task.

[01:14:06] **Participant 1:** Let's focus. Which means we, so any text or image you want to include, I include it on image. So

[01:14:18] **Moderator:** some elements from your blog,

[01:14:20] **Participant 1:** maybe, maybe some extract from,

[01:14:30] **Participant 1:** from some blocks.

[01:14:52] **Participant 1:** I want to change the background here. One second. And, okay. [01:15:00]

[01:15:01] **Moderator:** We're not concern about the background anymore, just, just try and focus on the, on adding a blog element to the homepage.

[01:15:11] **Participant 1:** I don't know how to add the blog element to the homepage.

[01:15:15] **Moderator:** So if we switch back to the homepage, um, you will invite to navigate to this add elements menu. Uh, so from here you've also got a blog section.

[01:15:28] **Participant 1:** Okay? So you can add blog this,

[01:15:31] **Moderator:** and here's all the different styles of blog, uh, elements that you can add.

[01:15:37] **Participant 1:** Okay. It's not easy to find this blog section. Thank you for,

[01:15:44] **Moderator:** and now you're in a different section. This is shapes.

[01:15:48] **Participant 1:** Oh no, I wanna return to the section. Maybe we.

[01:15:57] **Moderator:** This is a category menu, but we don't have [01:16:00] any categories, so let's instead add something more visual.

[01:16:07] **Participant 1:** Okay. Um, add elements.

[01:16:11] **Moderator:** Yeah.

[01:16:14] **Participant 1:** Okay.

[01:16:25] **Moderator:** Nice.

[01:16:27] **Participant 1:** Now, now I think it's, it's better. I don't know how to make it more smaller.

[01:16:39] **Participant 1:** Mm.

[01:16:46] **Participant 1:** No.

[01:16:51] **Participant 1:** Okay. I will delete this.

[01:16:55] **Moderator:** Choose, yeah.

[01:16:57] **Participant 1:** The final touch. Um, [01:17:00]

[01:17:00] **Moderator:** the other ones are a bit smaller.

[01:17:04] **Participant 1:** Okay. Um, I want to customize it and make it smaller, but I can see where can I do this?

[01:17:15] **Moderator:** Uh, here from add elements, you can, you can select an element that's a bit smaller. For example, these postlets sidebar, uh, sorry.

[01:17:25] **Moderator:** This section is, includes quite stuff that's quite small. Um, I meant no.

[01:17:37] **Moderator:** Yeah. Okay. Still use that.

[01:17:47] **Participant 1:** Hmm. No, it's fine.

[01:17:51] **Moderator:** Okay.

[01:17:53] **Participant 1:** Okay,

[01:17:55] **Moderator:** perfect. So this was, uh, almost [01:18:00] everything. Uh, the last step from task five is to publish your website.

[01:18:05] **Participant 1:** So I guess I will look a final preview just to see how it looks.

[01:18:11] **Moderator:** Good.

[01:18:12] **Participant 1:** And, okay. Home

[01:18:20] **Participant 1:** about me section

[01:18:26] **Participant 1:** and block.

[01:18:37] **Participant 1:** Okay. I think, I think it's fine. So I'm just clicking on publish.

[01:18:44] **Moderator:** Alright.

[01:18:49] **Moderator:** Now you can even press view. You're gonna see the final thing.[01:19:00]

[01:19:10] **Participant 1:** Okay.

[01:19:11] **Moderator:** Was that easy? So, um,

[01:19:14] **Participant 1:** anyone can, can see my, my side?

[01:19:18] **Moderator:** Yeah.

[01:19:19] **Participant 1:** Yeah. And uh,

[01:19:21] **Moderator:** you can obviously unpublish it if you want. Um, though the articles are kinda interesting. You can read them after we finish and say what you think. Um, but yeah. Um, okay. I think this is all done.

[01:19:41] **Moderator:** We can go back to the documents here and go to the next page, which is. A post test questionnaire. So I need to fill in this first two fields. And this is, these [01:20:00] are questions for you, so have a look through them and

[01:20:08] **Moderator:** say what you have to say.[01:21:00]

[01:21:08] **Moderator:** Uh, you've got two checks on this line. Uh, you have to move one of them. Oh, yeah.

[01:21:13] **Participant 1:** Oh, okay. I thought it's automatically if you choose another one. No,

[01:21:22] I chose

[01:21:23] **Participant 1:** learn.

[01:21:27] **Participant 1:** Um, no.

[01:21:32] **Moderator:** Okay, perfect. That's all. Um, this is for me to calculate, but I'm gonna do it later.

[01:21:46] **Moderator:** And this is what I've got, what I've got in front of me, so I've already done it. So yeah, that's, that's the whole session for you. Um, any last words or any famous last words on how you found [01:22:00] the, the system overall?

[01:22:03] **Participant 1:** I found it interesting and, uh, thank you very much.

[01:22:07] **Moderator:** Would it be something you would use in the future?

[01:22:10] **Participant 1:** I, I would use it, yes, I would use the system. Um, I needed help as a first time user, but now I think I would definitely, definitely be, be greater in using it. So I would use it in the future, yes.

[01:22:29] **Moderator:** Oh, perfect. Well, thank you very much for your time and have a wonderful week.

[01:22:38] **Participant 1:** Thank you.

[01:22:38] Thank you.
